If you had one superpower what would it be and why?

Math Lessons for 5/1

For phase 2 the district has included lessons for specific 4th year math classes online only (Pre-Calc, Prob/Stats/Discrete, Pre-College Math). Teachers if you have students who don't have online access to the assignments and they are in one of the 4th year math classes instruct them to do the Algebra 2 assignments or have them contact their math teacher via email.

Regardless of the subject all students are on lesson #12 (if students are utilizing the electronic forms only, they just need to click on the assignment listed under lesson #12 for their current class in the Mathematics Distance Learning file that everyone should have posted on Teams, but if they are working from the paper packet I have also included the page numbers that correspond with the daily assignment). The assignments are as follows:

Algebra 1 - Lesson 12 (paper packet page 24) FYI: There is one error on this document. On #5 assume all variables are "x"

Geometry - Lesson 12 (paper packet page 38-39)

Algebra 2 - Lesson 12 (paper packet page 48) FYI: There is one error on this document. On #5 assume all variables are "x"

Pre-Calc - Lesson 12 (online access only)

Prob/Stats - Lesson 12 (online access only)

Pre-College - Lesson 12 (online access only)

AP Calc BC and **AP Prob/Stats** are providing their own assignments, so students need to reach out to Mr. Flores and Ms. Chandler for their AP Enrichment lessons.
