Math Lessons for 5/19

Happy Tuesday!!!! Students are on lesson #18 (if students are utilizing the electronic forms only, they just need to click on the assignment listed under lesson #18 for their current class in the Mathematics Distance Learning file that everyone should have posted on Teams, but if they are working from the paper packet I have also included the page numbers that correspond with the daily assignment). The assignments are as follows:

Algebra 1 - Lesson 18 (paper packet page 23)

Geometry - Lesson 18 (paper packet page 35-36)

Algebra 2 - Lesson 18 (paper packet page 50-51)

Pre-Calc - Lesson 18 (online access only)

Prob/Stats - Lesson 18 (online access only)

Remember for the 4th years subjects that only have online assignments that students who are working in paper packets can do the Algebra 2 assignment as a replacement assignment.

English Lesson

Daily Reading: <https://www.tweentribune.com/article/teen/teen-finds-meaning-1950s-popularity-guide/>

Daily Writing: 1-2 Pages—either hard copy journal or submitted via Teams

In the article, “Teen Finds Meaning in 1950s Popularity Guide,” the author discusses how a teen used a 1950’s guide to popularity to fit in during middle and high school. If you could write your own guide to next year’s class, what tips would you include? What are some strategies you would suggest? What helped you have a great year? What would you suggest next year’s class avoid?
